Lymphedema Consent

Patient Name: _____ DOB: _____

Successful treatment of lymphedema requires commitment and dedication of the patient and therapist. It is to be understood that this program is not a cure, but a maintenance program and you will be responsible for keeping your condition under control for the rest of your life. Reduction of edema not only improves the patient's quality of life but also decreases the incidence of severe secondary infections. If you are treated by Shea Physical Therapy Specialist, you will be required to follow a specific program at the office and at home.

Lymphedema is an abnormal buildup of fluid, protein and cellular waste (called lymphatic fluid) in the tissues, causing part of your body to swell. The goal of rehabilitation is to help you improve the function of the affected areas, manage the swelling and improve your quality of life.

Treatments for lymphedema may include:

- Pre- and post-operative assessment and education for specified cancer diagnoses
- Complete decongestive therapy
- Compression garment recommendations, fitting and training
- Kinesio Tape to relieve pain and reduce swelling
- Customized exercise plans
- Skin care and education
- Pneumatic sequential pumps
- Manual lymphatic drainage
- Compression bandaging
- Soft tissue and scar mobilization
- Self-care education

Please initial.

_____ I have been informed that the treatment of lymphedema – compression bandaging, and instructions in exercise and self-care – requires daily appointments (Monday-Friday) before the treatment sequence tapers to 2-3 appointments/week, until my custom garment(s) arrive.

_____ After my treatments with the physical/occupational therapists, I'll be required - to the best of my abilities – to perform a self-care protocol which consists of daily wear of daytime and nighttime garments and any other recommendations taught during my therapy visits.

This consent form has been explained to me and certify that I fully understand its contents. I have had the opportunity to ask questions about the above information, and I know that I can ask any questions that I have, because of the treatment or further discussion, at a later date.
